

Jusletter IT

The Journal for IT and Law

<http://jusletter-it.eu/>

weblaw.ch

What drives us?

Technology, digitalization, transformation, automation, change are our passion. We want to take up, reflect and classify the topics from a technical, social and especially legal point of view. Unagitated, up-to-date, well-founded and to the point.

Our Topics

Jusletter IT has its origins in information technology law and legal informatics. The focus evolved towards AI, LegalTech, data protection, e-government/justice/democracy, e-commerce, copyright and other topics. At the center is the triangle of people – technology – business. The regulatory framework for this triangle is provided by law and institutions. We want to follow and discuss worldwide developments, but we primarily address a readership in the DACH region.

Jusletter IT lives digitalization

Jusletter IT is not just a journal, but a multimedia platform. There is room for in-depth technical articles as well as shorter ideas and thought sketches, blog posts, videos of events, case law monitoring and news. Even digital books and conference proceedings can be found here.

More international, more up-to-date, better

Jusletter IT is currently undergoing a relaunch process. We are further internationalizing our editorial team and developing new formats. The goal is to further increase the current frequency of at least six issues per year.

About the Journal

Jusletter IT is published exclusively online. The articles are citable and can still be found at the same Internet address years later. The extensive archive stretches over 20 years and contains e.g. all conference proceedings of the “International Legal Informatics Symposium” (IRIS) held annually at the University of Salzburg.

Regulator contributors

We have a series of regular columns and publications in Jusletter IT: TechLawNews by Ronzani and Schlauri Attorneys, The DPO View (Michal Cichocki, Matthias Glatthaar, Claudius Ettliger, Nora Rumbeli), and publications by the Liquid Legal Institute.

Be part of it!

- 1** You can write articles – just send us your manuscript and our editorial board will review it.
- 2** You can opt to write a regular „feed“ on a topic and jurisdiction of your choice, e.g. „Artificial Intelligence in China“ or „Data Protection in the U.S.“ – just get in touch with us and we can see together how you best fit in.
- 3** As a digital platform, our content can also be videos or podcasts. If you are organizing a conference, you could have the keynote speeches published in Jusletter IT!
- 4** Subscribe to the journal – you can get an individual subscription or a multi-user subscription for your organization.
